

# THE JOURNAL OF PRIVATE EQUITY

**EDITOR-IN-CHIEF:** F. John Mathis

**ISSN:** 1096-5572

**E-ISSN:** 2168-8508

**FREQUENCY:** Quarterly

**CONTENT AVAILABLE** from Vol 1 Issue 1 (1997)

**AUDIENCE:** Practitioners working in venture capital funds, pension fund managers, merchant banks, LBO funds, investment divisions of commercial banks, corporations, and equity investors.

## ABOUT THE JOURNAL

*The Journal of Private Equity* (JPE) provides research and analysis on investment in venture capital and private equity, including secondary market sales, taxation, and policy issues. The JPE highlights the critical components of successful deals with detailed explanations, probing analyses, and real-life case studies. Themes covered in the JPE include applying new techniques to enhance deal profitability, managing and monitoring private equity portfolios, locating opportunities and managing risk, and assessing business plans and management teams.

## MISSION

*The Journal of Private Equity* seeks to offer practical analysis and advice on the strategies and techniques of today's most successful venture investors. To provide the most current, accurate, and globally inclusive analysis of company, industry, and market activities related to investment in this area. The JPE encompasses research on creative innovation, productivity, job creation, and economic growth.
